metus INGEST

www.metus.com

Nothing comes close to it when it comes to performance.
Ingest is a powerhouse of a capture tool.
It provides more than you need for less than you think.

- Multi channel, multi profile operation
- Captures multiple formats simultaneously from the same source
- Supports for a very wide range of file wrappers: (MPG, M2P, AVI, F4V, MXF, MOV, XDCAM, MP4, TS, WMV, WAV, M4A, P2)
- Supports a wide range of video and audio essences (MPEG2, DV, DVCPR0, DVCPR050, Apple ProRes, H.265 / HEVC, DVCPR0HD, Uncompressed, H.264, AVC/AVC-Intra, IMX, VC-1, PCM, AAC, WMA, Avid DNxHD/IMX/XDCAM/JFIF)
- I/O Device support: Blackmagic Decklink, Viewcast Osprey, Deltacast, Matrox, AJA, audio only cards
- HD support is standard, no additional cost
- Supports capture of up to 8 HD channels on single chassis (please check with us on the hardware requirements and capture format)
- Hardware accelerated H.265 / H.264 encoding on supported platforms (Intel Quick Sync and Nvidia)
- Simultaneous IP streaming output: capture and stream different formats from the same source at the same time (UDP, RTP, RTMP)
- Capturing IP streams, with transcoding
- Multi channel audio capture (SDI embedded or from audio device) to MPEG, MXF, MP4, MOV, AVI files and audio channel remapping support
- Scheduled and manual capture modes
- Print to tape
- Closed captioning support (with AJA and Blackmagic boards)
- Supports LTC and VITC burn in to files
- Supports LTC Timecode from external timecode boards, audio in-line, external sound card
- Supports video matrix control (Harris, Kramer, Blackmagic, Quartz, Jupiter and Snell routers)
- Supports still and animated logo, text, and time overlay to captured files
- Lossless manual and auto split of files
- Supports Safe Network Recording (transfers to a network location on the fly/realtime)
- Supports edit while Ingest (playing and instant editing of files that are still being captured) for Edius and Premiere Pro
- Avid Interplay check-in
- Metadata input during capture
- Customisable front end, with individual preview screens for each encoder
- Customisable keyboard short cuts
- Each encoder can be individually controlled
- Remote control center application to monitor and control multiple INGEST stations/channels over IP
- iPad application for remote control
- Can be used as file based transcoder, with watch folder and batch transcoding support
- Password protection of critical operations Operations log
- Win 7/8 pro 64 bit, Win server 2008 R2 64 bit
- Proven rock solid 7x24 reliability tested at over 600 deployments
